Accessibility Statement for Kifli.hu

This is an accessibility statement from Kifli.hu Shop Korlátolt Felelősségű Társaság.

Measures to support accessibility

Kifli.hu Shop Kft takes the following measures to ensure accessibility of Kifli.hu:

- Integrate accessibility into our procurement practices.
- Provide continual accessibility training for our staff.
- Assign clear accessibility goals and responsibilities.
- Employ formal accessibility quality assurance methods.
- Maintain dedicated accessibility utilities library - Custom hooks and components specifically designed for accessibility
- Automated accessibility testing in CI/CD pipeline - Every code change is automatically tested for accessibility issues
- Regular testing with screen readers and keyboard-only navigation

Conformance status

The Web Content Accessibility Guidelines (WCAG) defines requirements for designers and developers to improve accessibility for people with disabilities. It defines three levels of conformance: Level A, Level AA, and Level AAA. Kifli.hu is partially conformant with WCAG 2.1 level AA. Partially conformant means that some parts of the content do not fully conform to the accessibility standard.

Additional accessibility considerations

- Custom keyboard navigation utilities beyond WCAG requirements
- Enhanced focus management with smooth scrolling
- Comprehensive screen reader announcements for e-commerce features
- Mobile-optimized input modes for forms
- Real-time accessibility testing with Storybook a11y addon

Limitations and alternatives

Despite our best efforts to ensure accessibility of Kifli.hu, there may be some limitations. Below is a description of known limitations, and potential solutions. Please contact us if you observe an issue not listed below.

Known limitations for Kifli.hu:

1. **Adyen payment iframe and payment method selection**: Payment interface may have limited keyboard navigation or screen reader support because we rely on external payment service providers whose interfaces we cannot fully control. We're working closely with Adyen to improve accessibility of their payment interfaces. Contact our customer service team for assistance with payment processing.
2. **Delivery area maps and store location maps**: Map interactions may not be fully accessible via keyboard navigation because complex geographic visualization requires specialized interaction patterns. Developing text-based alternatives and keyboard navigation for map features. Use the text-based store locator and delivery area checker as alternatives.
